

## VPS LPG road tankers

7

Mass flow metering system with S.A.M.P.I. electronic head, most often used in Poland and Ukraine.

8

Liquid Controls mechanical flow meter MA-7-GX-10, the most frequent flow metering solution on road tankers, currently on the decline. Most often used in all LPG markets.

9

Liqua Tech mechanical flow meter LPM-200 – supplied mainly to Russia and Ukraine. Not MID certified.

### Technical parameters for all systems:

Liquid measured	<b>LPG</b>
Mechanical Environment class	<b>M3</b>
Accuracy class	<b>1,0</b>
Min/max Temperature liquid	<b>-20°C /+50°C (-40°C /+50°C)</b>
Min/max Temperature range ambient	<b>-25°C / +55°C (-40°C /+55°C)</b>
Flow rates	<b>40-450 kg/min</b>
Flow rates	<b>80-860 L/min</b>
Min/max pressure	<b>2 bar / 25 bar</b>
Min measured quantity	<b>200 (450) kg (L)</b>
